

# Project **BRIEF**

*I-94 North-South Freeway Project information*

## ABOUT THE PROJECT

- Stretches 35 miles between the Mitchell Interchange in Milwaukee, through Racine and Kenosha counties to the Illinois state line.
- The \$1.9 billion project will expand the interstate to four lanes in each direction and redesign 17 interchanges.
- Visit the project Web site online at [www.plan94.org](http://www.plan94.org)

## Mitchell Interchange Tunnel Lane Control Signs

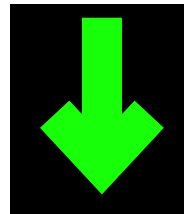

As part of the I-94 North-South Freeway Project, the Wisconsin Department of Transportation (WisDOT) is continuing reconstruction of the Mitchell Interchange, including construction of three new tunnels.

When open, Tunnel Lane Control Signs will be employed prior to the tunnel entrances. These signs are the first freeway lane control signs in Wisconsin, and will be used to communicate any upcoming traffic incidents in the tunnel, maximize safety in the tunnel for emergency responders and maximize use of the new Collector-Distributor (C-D) roadway. The signs are monitored 24/7 and controlled remotely by WisDOT's Statewide Traffic Operations Center.

The signs will display the following graphics:

**LANE  
CLOSED**

**LANE  
OPEN**

**MERGE  
INTO  
DIFFERENT  
LANE**

**SPECIFIC  
TEXT  
INSTRUCTIONS**

Motorists should be attentive to tunnel lane control signs as they are enforceable traffic control devices. Motorists can receive citations from law enforcement if they do not obey these signs.

The project team appreciates your cooperation during this project.

### Questions?

- Call the project hotline at (262)548-8721.
